

Anchoring, bonding & sealing solutions for those taking up Green Building practices!

GREEN STAR APPROVED

“Buildings have a significant impact on the environment, consuming 32% of the world’s resources, including 12% of its water and up to 40% of its energy. Buildings also produce 40% of waste going to landfill and 40% of air emissions”.

Powers Fasteners has now completed GECA Certification for AC100e®, AC100PRO® and PowerStick®. This automatically achieves a product score of 100% in calculating a buildings Green Star rating.

These high quality, no VOC and low toxicity anchoring, bonding and sealing solutions cover a wide range of construction and building uses. Go to www.geca.com.au for more information on Good Environmental Choice Australia certified products.
