5 new screws have been added to compliment the Bi-Metal Stainless Steel self drilling screw range. Ideally suited towards applications found in the Aluminum fabrication industry these new additions offer „one step“ installation, with no pre drilling required fast speed of installation is ensured with the security benefits of using a True Austenitic 300 series stainless steel material. Please note these new screws are listed on pages 92 and 93 of the latest 2007/2008 Buyers Guide. For more information please contact your Powers Sales Representative.
